

IMHS Degree Program Specializations and Required Courses

Updated: September 17, 2017

Several courses have been pre-determined (preset) for each specialization (see the chart below). Students may choose electives to make up the balance. Bear in mind that your chosen specialization will be printed on your Master's and Doctoral Diplomas. Therefore, choose the specialization that affords you the most flexibility in your metaphysical career. "Metaphysical Science" is the broadest specialization.

See the next page for course titles and the [Course Catalogue](#) on the IMHS website for course descriptions.

* Students who choose this specialization must possess exceptional English writing and speaking skills.

** All holistic healing specializations have a choice between Reiki 1, 2, and 3, or Kvantum Energy Healing 1, 2, and 3. Students already certified in Reiki are not required to re-take these courses, but must submit certificates for Reiki 1, 2, and 3 or another recognized type of healing certification prior to IMHS graduation. In this case, students may choose the three Kvantum Healing courses or three additional electives.

*** The *Ufology and Abduction Research* specialization also requires Course MHs.M6: *Holistic Meditation, Visualization, and Focus* and Course M13: *Metaphysical Hypnosis* (for non-remedial purposes). No Hypnosis Practitioner's Certificate will be issued unless Course MHs.M8: *Transpersonal Counseling and Coaching* is also taken.
